

Daniel Nyongesa-F4

My name is Daniel Nyongesa. I was born in Lunyu In Trans Nzoia County. My parents Separated when I was only 2 years. I have been staying with my grandmother ever since in a grass thatched house. Life has been challenging somehow, growing up without parents and my grandmother did not have a paying job as well.

When I was in P8, my grandmother became ill. Had no one to turn to, I thought my life was going to be a mess. She was the only hope at that time. Through praying day and night, she recovered and supported me with what I needed to sit for primary national exam.

All my High I have been surviving on Bursaries and loans. But what affected me most was that my own mother passed on. Even though we were not together she meant a lot to me. With her encouragement to keep pushing was keeping my life move smoothly. In the following year, again I lost my own brother. It was disaster after disaster. I was heartbroken but I had to accept.

After I did my National Exams, I was expecting a good grade, but that was not what I was thinking. I got a C. The Grade was too low to proceed to another level. I have decided to rewind at Living Hope High School to up my grades. I am so much

determined to achieve good grade. The environment is conducive, I have enough time to study, and the population is very small that means teachers will have enough time for each one of us.

I have been playing hand ball and volleyball up to the regional level. I used to carry the name of the School every other year. They were very sad when I had to leave the School.

Living Hope High School has given me a warm welcome. I can never take the opportunity given to me for granted. I thank director, Marilyn Uhl, for accepting me to be part of Living Hope family. I promise to be good and behave well at all times.

Yours Sincerely

Daniel Nyongesa
