

Juma Delvis- F4

My name is Juma Delvis. I was born in 2003 in sitikho, Webuye west in Bungoma County. I started my education at Milo Academy in baby class where I started until P3 then I transferred to Testimony Academy where I proceeded and did my final exam and scored 389 marks and got admission to Teremi High School.

Life at Teremi High School was tough. My parents could not raise enough fees. I stayed out of school most of the time. Nevertheless, I finished High School through Bursaries and scholarships, although the situation had affected me already and did not manage to score the grade that I desired. I only managed to score a C. I have always wanted to venture into Medicine. The grade I got cannot allow me to do that. It has very limited opportunities. There was a need to rewind and up my grade. That is why I am here at Living Hope. I am so much optimistic that at the end of this period am here, I will get a B+, now that I have enough time here for doing my studies and the population is small as well.

I like reading storybook and newspaper as well as travelling and playing football. I love getting to know what is happening around the world. My dream is to work in the medical field.

Yours Sincerely

Delvis Juma
