

Morgan Wamalwa Kianjala

Hello!

My name is Morgan Wamalwa Kianjala and I am 13 years old. I live at home with my parents who are both farmers. I have 3 siblings and they are all girls.

Some of my favorite hobbies include playing activities such as games, drama and puppeteering as well as sports. My favorite sport to play is soccer. I enjoy being able to play here while at Living Hope High School.

My favorite subject to study while I'm in school is science. The reason I enjoy science so much is because I am hoping to continue my studies after high school in the medical field. My career of choice is to become a doctor so I can help others.

I pray that someone has been touched by my story and is willing and able to sponsor me in my studies here at Living Hope High School. This not only will give me hope, but hope to others in my home community. God bless you all.
