

Ressah Nekesa Wafula

Hi!

My name is Ressah Nekesa Wafula. A girl aged sixteen years. I was born the year 2002 . I'm the first born to Mr. and Mrs. Wafula. I joined St John's Roman Catholic the year 2008 where I started my primary education.

My parents worked hard to make sure that I continue with my education however peasant they were. Unfortunately, our real mother left us the year 2013 while I was in class three; from 2013 to 2014 we have been staying with our grandmother. From 2015, we have been staying with the step-mother, but she does not feel it is important to keep spending money on school fees after primary education. There was so much conflict over this that my father sent me to live with my uncle so I could continue my education. My father has been able to pay for my books and I am grateful for support.

After my secondary education I would like to join Masinde Muliro University and study medicine and work with the brain. My future goal is to be able to get a piece of land for my father so they will have more stable finances.
