

# Winlex Eravuna Gimode

Hello!

My name is Winlex Eravuna Gimode and I am 15 years old.

During my childhood I liked playing games with all of my friends, my favorites being football and volleyball.

My time in primary education was one that was faced with challenges that many of my classmates were faced with, late fees. Due to not having the sufficient funds to attend school, I would be sent home for a time until my family could afford to send me back. One time I even had to stay home for a full two weeks because we could not afford it. It was hard enough for my parents to earn enough money to help pay for our meals, let alone our education.

I am a very hard working student who doesn't like to waste time when it comes to the classroom. Since I missed so much of my primary education, I do not like missing school due to illness or even staying idle for too long, as I want to make the most of my education. Math, English, and Kiswaili are my favorite subjects.

I still enjoy playing volleyball and football and have even once scored five goals in one competition!

It has been my prayer that you and/or other well-wishers could come alongside me and be my sponsor during this wonderful secondary education season of my life. This will help me fulfil my dream of becoming an engineer.
