

## LEWIS WECHULI NAMASWA

My name is Lewis Wechuli Namaswa. I was born on 28<sup>th</sup> April, 2004. My parents are Andrew Kiteki Namaswa and Roselyn Wechuli, both alive. Their influence has been positive in my life since and they've struggled to provide for my basic needs. In our family we are seven children in total. Three sisters and four

brothers. I'm the fourth born.

I started school in Milo Central Academy, Bungoma County, Kenya, where my performance was excellent. I studied there till I reached the 4<sup>th</sup> grade when my parents decided to transfer me to Kuywa Primary school since they were not able to pay my fee because my elder brother and two sisters were in secondary schools. The burden became heavy, hence they had to do the needful.

After transferring to the new school, I really struggled in my academics. Our school was densely populated with few teachers. Some teachers were never committed to come to class and teach, therefore we'd to read on our own. Unlike the previous school where I was, the environment here was quite different; unfriendly and uncondusive for study. This had an immense impact on my performance which worsened as time went by.

I did my Kenya Certificate for Primary Education exams and managed to score 319 marks. I like all subjects but Mathematics and Science were my most favorite. I didn't expect to get this score because I know my potential. I was aiming higher. I dropped in my performance. I promise to work really hard in high school

## LEWIS WECHULI NAMASWA

to make up for my lost opportunity. I dream of becoming an engineer in future and I'm certain I'll be able to live it one day.

Coming from a needy background, I heard about Living Hope High School and its support for the needy students, I took a step and tried my luck. I did the interview and I was fortunate to get accepted to join. This has been one of my dream schools and I'm happy that I'll coming here.

I can dance, sing, milk and do farm activities. I also play volleyball. I used to play in our school team. I'll be using these gifted skills for the good of LHHS. I expect to have a favorable environment where I'll pursue my academic excellence.

As I stated earlier, I didn't do well because of my learning environment and the challenges back home which could not allow. I therefore I appeal to a good hearted person to give me a chance to proof myself like LHHS has done by

selecting me to join. Kindly give me your support and you won't regret it, I promise.

Blessings.
