

## EVANS SIMIYU

My name is Evans Simiyu, born on 11 January 2001. I was a pupil at Kamusinga Primary School until P8. I did my KCPE national exam in 2020 last year and scored 384 marks. To get such good marks I had to work very hard; talked to the teachers, got extra work, always participated in group discussions, and made sure that my homework was done every day.

When I was eight years old, my parents divorced. They abandoned me and a Samaritan who was our neighbor brought me up and took care of me. God was watching out for me. Poverty has made my life hell on earth. I was living from hand to mouth and working for other people to make my food money.

In Primary School, I was always worried about school fees for high school. I thought my dream for education would be over after primary school. No one will ever know that I was a smart boy with great potentials. My adopted mother heard about LIVING HOPE HIGH SCHOOL, and how they help smart but poor kids. I came and applied and then I went to the interview. I was extremely happy when they told me I had been accepted. This past Tuesday I came for orientation and I thanked the almighty GOD for picking such a good school for me. It is a good performing school, it is competitive in the country and students are provided with everything they need for success. They put GOD first and that is why the students are successful.

In primary school, I was active in all the activities. I participated in football up to the regional level. I was in drama and debate. In academics, I was above average in all subjects. I was working tooth and nail to make hay while the sun was still shining.

My main goal is to get excellent grades and pursue civil engineering. I want to design houses, buildings, bridges, and roads and make Kenya beautiful and modern.

I need your help and support. I am asking you to be my sponsor during high school so I can be successful and bring honor to LIVING HOPE HIGH SCHOOL. I look forward to hearing from you and getting to know you.

In CHRIST,

Evans Simiyu.
