

Esther Nafuna

My name is Esther Wanyama. My birthday is March 28th 2006. My mother is Eunice Asami and my father is the late Robert Wanyama who passed away on 10th March 2022. I am the last born in the family of 6. I went to Kuywa Primary.

Life has been very challenging on my side as far as academic is concerned. I spent many days on the way going home to look for school fees. I stay with mom who does not have a paying job. She does laundry for other people to earn something small. If I could get a chance to stay in class, I never had a pen or books to write in. I almost gave up at my tender age. Despite the fact that I was struggling and staying out of school most of the time, I never forgot to ask

my friends on what was covered in class. I kept working hard both at home and at School. Luckily enough, I scored 380 marks. It was God's doing and my hard work.

My hobbies are playing leg ball and volleyball. I was the champion of leg ball in our school. Besides that, I love singing. I was also leading the choir in our school to perform before parents, teachers and even visitors.

I have a dream of becoming a Lawyer. I know I have a lot of work ahead of me but I know with God and good discipline, I will achieve. I am so happy I chose Living Hope over other Schools around because of the good grades they produce every other year. Teachers here at Living Hope Instill good behaviors to students. The School puts God first in everything they do. They pray twice a day jointly.

I will use this chance given to me to always choose the right path, work hard and obey school rules so that I will have ample time to achieve my dreams.
