

## Jimmy Khaemba

Hello! My name is Jimmy Khaemba. My birthday is July 9<sup>th</sup> 2007. My father's name is Emmanuel and my mother's name is Isabella Mbaya. We are 8 in our family. My parents do not have a paying job. They mostly depend on selling their farm produce to earn income

and we only have only one planting season in a year so during the dry season we rely on the grace of God.

I went to Mwomo D.E.B Primary School and later transferred to Nang'eni F.Y.M where I did my National exam and got 358 marks out of 500. I was chosen to be a class representative where I used to manage 77 students. It was tough job but equipped me with lots

of experience. I developed leadership skills and now I can lead and overcome challenges well among my peers.

My best subjects were, mathematics, Science and Kiswahili however no subject was worse to me but I loved those 3 most. I chose Living Hope High School because of so many things. According to the school performing history, each year the school produces good

grades and the school always come 2<sup>nd</sup> in the county. I want to be among those who will be able to break the record in the County in a few years time. I will work very hard to achieve the goal that I have set. I have a dream of doing pharmacy. I know God will help me together with Mum Marilyn, teachers and well wishers. God bless everyone that will take part in building of my future. Lots of love

Yours sincerely

Jimmy khaemba
