

Nevil Wafubenga.

My name is Nevil Wafubenga. I was born in 13th May 2009. I am the 3rd child in the family of 4. I have both parents. They depend on growing and selling crops for our up keep.

I am talented in playing soccer and I have been playing for my school ever since I was in grade 5 up to grade 8. My favorite subject has been and will remain to be mathematics and English. In class when the two subjects are being taught, I ask the teachers so many questions until they say they have run out of time. In class I took up the role of assisting my fellow students where they did not understand and that has really helped me to understand even a lot through that.

When I grow up, I would like to be a great teacher who will not only love the kids but love the passion of teaching,

I am grateful to have been given this chance at Living Hope. I remember during interviews, there were so many kids who had come for

interview but the school only managed to choose 11 boys and 11 girls. The chances were so much limited. However, I will use this chance that I have been given to work so hard and never at any single time let the school and the sponsors down. I am praying that this story moves somebody somewhere and pick me up as an African sponsored kid. God bless you all
