

Vivian Wamalwa.

My name is Vivian Wamalwa. I was born in May 11th 2009. I have never celebrated my birthday because my parents think it's not important just because they don't have enough money. We are 8 in my family. I am the 4th child in my family. We all went to a public school. The Principal in my former school hated me just because I had never paid any single penny. I was sent home every single day to collect money for school fees but it was all in vain because there was no money at all.

My hobby is running. I can run very fast and for long time without getting exhausted. I think I am gifted. When I grow up, I would like to do something in the medical field. I would like to save lives and care for sick people. My best subject is Kiswahili. I score an A every single exam that comes. Sciences are challenging but I will try my best to improve on them as well.

I really thank God for enabling me get to Living Hope. The school is the best performer in the county. Many times when I was in primary, I used to hear it was either position one or second. That inspired me and had great desires to join the school.

It would be very good in case I get to know that I am sponsored. I am praying to God that this becomes a reality.
