

Mike Imbova

Jambo! My name is name is Mike Imbova. My birthday is May 27th 2006. My father's name is Bernard Mange'eni and my mother's name is Everlyn Khasoa. I am the 2nd in the family of 5.

I went to Mukhuyu F.Y.M primary School. My best Subjects were English, Mathematics social studies. I started performing very well

since the time immemorial. I used to be always at the top position in every examination. I want work in the medicine field when I grow up graduate.

I like playing football. I have been competing against different schools in our region. No single day we have lost to our opponent. We used to

compete as of it was our last game and used to put in all our skills and efforts to win.

Getting a chance at Living Hope wasn't easy. They had to base my application on so many things of which I qualified. I thank God I was among those few who were selected after interview. I will use the chance given to me to study very hard, put in all the efforts and go extra miles to achieve the success ahead of me

I chose Living Hope because of its name. The School has restored back hope to the kids who have lost it in order to achieve their targeted goals. In many cases, bright but very needy students do not get an opportunity to go to school and study, I thank God Living Hope has broken this culture. I will work hard tirelessly to make my dreams come true.

In God I trust,

Mike Imbova
