

## **Basil Wanyonyi.**

My name is Basil Wanyonyi. I was born on 2<sup>nd</sup> April 2009. I am now 13 years old. I am third born in a family of four. I am a hard worker and I always do my best when any duty calls upon me. I worked so hard in primary school despite multiple family challenges I encountered along the way.

My father is a peasant farmer who cannot afford paying school fee for the four of us. As an effect, I used to be sent away from school to bring the fees and I could stay home for over two weeks due to lack of resources. This was a major challenge for me. But because I loved studying and doing my homework, I used to do my private studies to catch up with my classmates whenever. My industrious nature attracted favor and blessing from God as I always prevailed in academics.

My parents always tried their best to make the ends meet to provide food and pay fees as well with little success. My mom does washing as her job but its limited because it is always on and off and so whenever she

finds the job we smile and vice versa.

I felt my dreams had come true when I got a chance at Living Hope High School. I feel blessed and I am so optimistic of a bright future. This school is so important to me and it is the biggest blessing that has happened to me. Without this school I would have a very undefined future.

I like playing volleyball and singing. They are my favorite hobbies. I would like to be a teacher when I finally finish my studies. I would also like to be a mentor to all young men in the society as a living testimony that you can live a better life than what you are now.

I pray that I find someone who can help me trace my dreams. I will be so grateful if you will volunteer to help me out.
