

Exevier Simiyu.

My name is Exevier Simiyu. I was born in 2010. My father is a boda bode rider while my mother is jobless however she is a housewife. We are 9 in our family and I am the 3rd born. I have both parents. I currently stay with my Aunt. I moved to stay with her the time when I was to start grade 4 because there was no money at home.

My best subjects are English and Mathematics. I get many challenges in Geography and history but I am praying to improve on them because I have spared extra time for them. My best thing to do when I am free are reading story books and playing soccer.

Joining Living Hope was the best gift I encountered this year. The School is based on Christian foundation. The first day we got here, we were given bibles and given the power to read

the word of God in truth and in spirit. I will forever be grateful for this.

When I grow up I would like to venture into the medical field. I am praying to get a sponsor who will not only support me in terms of financial needs but also be my encourager towards achieving my goals.
