

Praise Sifuna.

My name is Praise Sifuna. I was born in 2008. I am 14 years old. I am the 3rd born in the family of 6. I have both parents at home. My fathers does casual jobs out of which, the money may not satisfy all our needs but very helpful. We have one blanket at home that we all use. I am surprised at Living Hope, Mum Marilyn has provided us with one blanket each of us. When I go back home, I will have a story to tell.

I love playing football. When I was in Primary, I was lucky to play up to sub-county level, due to Covid we were discontinued. My favorite subject is Biology.

The subject I find challenging is Mathematics, I have spared enough time to it so that I try to improve on it. Maybe discussion in a group will help make a difference!

I chose Living Hope because the students who goes through this school are very different in terms of character and behavior.

When I grow up, I would like to become a University Lecturer. I pray that God and any well-wisher will help me achieve this dream. God bless you all.
