

Purity Barasa.

My name is Purity Barasa. I was born in April 24th 2008. My father's name is Geoffrey Barasa and my mother's name is Josephine Makokha. I have 4 brothers and 3 sisters. My elder brothers and sisters dropped out of school because my parents could not afford to pay for them. I was lucky to have gone to school because I was residing at my uncle's home.

I went to Mechimeru primary school up to grade 6 then transferred to my uncle's place where I joined Sambu central primary school. My class teacher paid my fees from Grade 6 to grade 8. I scored highly after sitting for my national exam with 377 marks out of 500. I have been helping people in my village by washing their clothes for little amount of money before I got a chance to Living Hope.

I got to learn about Living Hope High School through my church member. I was lucky to get the little contribution from the church that aided me in buying needed items for my High School.

I like playing volleyball during my free time. My best subject are Biology and Mathematics. I realized they were the best when I could read and never forget anything

I am so thankful to have come to Living Hope because it's really the best school in the region. The teachers are wonderful, everyone treats each other equally.

I like English and Biology as my favorite subjects. I have a dream of becoming a teacher when I grow up.

Please if you are reading this, be my sponsor and I will never let you down. I know God will connect us in his own special way. I love you!
